CHAKANA COPPER CORP.

**CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED AUGUST 31, 2022**

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

**NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM
FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the unaudited condensed interim financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of Chakana Copper Corp. (the "Corporation") have been prepared by and are the responsibility of the Corporation's management. The unaudited condensed interim consolidated financial statements are prepared in accordance with International Financial Reporting Standards and reflect management's best estimates and judgment based on information currently available.

The Corporation's independent auditor has not performed a review of these condensed interim consolidated financial statements.

October 27, 2022

The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. Nature of Operations and Going Concern

Chakana Copper Corp. (the “Corporation” or “Chakana”) was incorporated on May 2, 2011, under the laws of the province of British Columbia, Canada. The Corporation is listed on the TSX Venture Exchange under the symbol “PERU”. The Corporation is currently engaged in exploration of mineral properties, with its principal focus at this stage on the exploration of the Soledad copper-gold-silver project located in central Peru (the “Soledad Project”).

The head office and principal address is 800 West Pender Street, Suite 1430, Vancouver, British Columbia, V6C 2V6, Canada. The records office of the Corporation is located at 1055 West Pender Street, Suite 1500, Vancouver, British Columbia, V6E 4V7, Canada.

The Corporation is in the process of exploring and developing its mineral properties. The recoverability of the amounts shown for mineral properties is dependent upon the existence of economically recoverable reserves, successful permitting, the ability of the Corporation to obtain necessary financing to complete exploration and development, and upon future profitable production or proceeds from the disposition of each mineral property. Furthermore, the acquisition of title to mineral properties is a complicated and uncertain process, and while the Corporation has taken steps in accordance with normal industry standards to verify its title to the mineral properties in which it has an interest, there can be no assurance that such title will ultimately be secured. The carrying amounts of mineral properties are based on costs incurred to date, and do not necessarily represent present or future values.

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Corporation will be able to continue in operation for the foreseeable future and meet its obligations in the normal course of business. The Corporation has incurred ongoing losses and will continue to incur further losses in the course of exploring its mineral properties. During the period ended August 31, 2022, the Corporation incurred a net loss of \$1,503,198 and as of that date has a deficit of \$37,454,629 (May 31, 2022 - \$35,951,431). The Corporation has historically relied on the issuance of share capital to fund its operations. Although the Corporation has been successful in raising equity financing in the past, there is no assurance that such financing will continue to be available with acceptable terms. These uncertainties may cast significant doubt about the Corporation’s ability to continue as a going concern.

The Corporation’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including the outbreak of the coronavirus (COVID-19) pandemic, relations between NATO and the Russian Federation regarding the situation in Ukraine, and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Corporation’s business.

2. Basis of Preparation and Statement of Compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as applicable to interim financial reports, including International Accounting Standard 34 *Interim Financial Reporting*. Therefore, these condensed interim consolidated financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and should be read in conjunction with the annual consolidated financial statements for the year ended May 31, 2022 (“Annual Financial Statements”), which have been prepared in accordance with IFRS.

The accounting policies applied in preparation of these condensed interim consolidated financial statements are the same as those applied in the most recent Annual Financial Statements and were consistently applied to all the periods presented.

These condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All dollar amounts presented are in Canadian dollars (or “CDN”), the Corporation’s functional currency, unless otherwise specified.

2. Basis of Preparation and Statement of Compliance (Continued)

The Corporation's consolidated financial statements include the accounts of the Corporation and its subsidiaries. Subsidiaries are entities controlled by the Corporation, where control is achieved by the Corporation being exposed to, or having rights to, variable returns from its involvement with the entity and having the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Corporation, and are deconsolidated from the date that control ceases. The Corporation currently has one wholly owned subsidiary: Chakana Resources S.A.C., a Peruvian company.

3. Significant Accounting Judgments and Estimates

The preparation of the Corporation's condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed interim consolidated financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ significantly from these estimates.

Significant judgments and estimates that have the most significant effect on the amounts recognized in the Corporation's condensed interim consolidated financial statements are as follows.

Judgments that have the most significant effect on the amounts recognized in the Corporation's condensed interim consolidated financial statements are as follows:

Critical Accounting Judgments

- *Impairment of Exploration and Evaluation Asset*

The net carrying value of an exploration asset is reviewed regularly for conditions that suggest potential indications of impairment. This review requires significant judgment. Factors considered in the assessment of asset impairment include, but are not limited to, whether there has been a significant adverse change in the legal, regulatory, accessibility, title, environmental or political factors that could affect the property's value; whether there has been an accumulation of costs significantly in excess of the amounts originally expected for the property's acquisition, development or cost of holding; and whether exploration activities produced results that are not promising such that no more work is being planned in the foreseeable future.

- *Going Concern*

The assessment of the Corporation's ability to continue as a going concern involves critical judgment based on historical experience and expectations of the Corporation's ability to generate adequate financing. Significant judgment is used in the Corporation's assessment of its ability to continue as a going concern.

- *Functional Currency*

The functional currency for the Corporation's subsidiary, Chakana Resources S.A.C., is the Peruvian sol – the currency of the primary economic environment in which the entity operates. Determination of functional currency may involve certain judgments to determine the primary economic environment and the Corporation reconsiders the functional currency of its entities if there is a change in events and conditions that determined the primary economic environment.

3. Significant Accounting Judgments and Estimates (continued)

Critical Accounting Judgments (continued)

- *Income Taxes*

Deferred tax assets and liabilities are determined based on differences between the financial statement carrying values of assets and liabilities and their respective income tax bases (“temporary differences”), and losses carried forward.

The determination of the ability of the Corporation to utilize tax loss carry-forwards to offset deferred tax liabilities requires management to exercise judgment and make certain assumptions about the future performance of the Corporation. Management is required to assess whether it is probable that the Corporation will benefit from these prior losses and other deferred tax assets. Change in economic conditions, metal prices and other factors could result in revision to the estimates of the benefits to be realized or the timing of utilizing the losses.

- *Value-added Tax (“VAT”)*

Management’s assumptions regarding the recoverability of VAT receivable at the end of each reporting period is made using all relevant facts available, including past collectability, the development of VAT policies and the general economic environment of the country to determine if a write-down of the VAT is required. Collection of the amount receivable depends on processing and payment of the claims by the local government, which historically has been very slow. While the Corporation is still pursuing collection, with the delay in processing and collection, the Corporation has been receiving its VAT from prior years, and as such, management has determined as at August 31, 2022 and May 31, 2022 that it is appropriate to record the VAT as a receivable without any allowance for collectability. The timing and amount of the VAT ultimately collectable could be materially different from the amount recorded in the condensed interim consolidated financial statements.

- *Leases*

The Corporation applies judgment in determining whether the contract contains an identified asset, whether the Corporation has the right to control the asset, and the lease term. The lease term is based on considering facts and circumstances, both qualitative and quantitative, that can create economic incentive to exercise renewal options.

Critical Accounting Estimates

- *Stock-based compensation*

Stock-based compensation is valued using the Black-Scholes option pricing model at the date of grant and expensed in profit or loss over vesting period of each award. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Stock-based compensation expense also utilizes subjective assumption on forfeiture rate. Changes in these input assumptions can significantly affect the fair value estimate.

CHAKANA COPPER CORP.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED AUGUST 31, 2022 AND AUGUST 31, 2021
(Unaudited – Expressed in Canadian Dollars)

4. Exploration and Evaluation Assets

	Condor Option		Aija Project		Barrick		Total
Balance – May 31, 2021	\$	1,898,477	\$	603,544	\$	288,819	\$ 2,790,840

Balance – August 31, 2022	\$	3,999,325	\$	932,015	\$	309,844	\$ 5,241,184

The Corporation's wholly owned subsidiary, Chakana Resources S.A.C., holds (i) the option to acquire a 100% ownership interest in the Soledad Project ("Condor Option"); (ii) holds an option to acquire a 100% ownership interest in the adjacent Aija Project, Peru ("Aija Project"); and (iii) holds an option to acquire up to a 100% ownership in other adjacent mineral concessions owned by Minera Barrick Misquichilca S.A. ("Barrick") (the "Barrick Option"). All three options are collectively referred to as the "Soledad Project". The Corporation is the operator of all related mineral exploration activities on these projects.

(a) Condor Option

On April 17, 2017, the Corporation entered into a Mining Assignment and Option Agreement (the "Condor Option") with Minera Vertiente del Sol S.A.C. ("MVS") (the "Agreement"), a subsidiary of Condor Resources Inc. ("Condor"), pursuant to which the Corporation has the sole and exclusive option to acquire 100% of the rights and interests in the Soledad copper/gold project, Peru (the Soledad Project), subject to a 2% net smelter return royalty ("NSR"). The agreement was amended on March 18, 2019 and November 13, 2020, relating to the Soledad Project.

The Condor Option is exercisable by issuing 500,000 common shares by June 23, 2018 (issued), making aggregate cash payments of US\$5,375,000, and completing 12,500 metres of drilling on the Soledad Project. During the year ended May 31, 2018, the Corporation fulfilled the 12,500 metres of exploration drilling requirement on the Soledad Project.

On April 14, 2022, the Corporation reached an agreement with Condor to amend the terms of the Condor Option dated April 17, 2017.

Under the existing agreement, a final payment of US\$4,425,000 was due to Condor on April 23, 2022. The parties have agreed to extend and amend the terms of the option to provide that Chakana may complete the exercise of the option by either: (1) paying US\$2,800,000 and issuing 9,480,198 common shares to Condor's Peruvian subsidiary prior to June 23, 2022, or (2) making the following cash and share payments to Condor's Peruvian subsidiary over the next three-year period. The Corporation has decided to exercise the option by making the following cash payments:

Date	Cash payment	Shares in CDN\$ equivalent
On or prior to June 23, 2022 (paid subsequent to period-end)	US\$ 800,000	\$ 200,000
On or prior to June 23, 2023	US\$ 1,000,000	\$ 200,000
On or prior to June 23, 2024	US\$ 1,000,000	\$ 200,000
On or prior to June 23, 2025	US\$ 1,425,000	\$ 200,000

The amounts of the share payments are subject to adjustment in the event of early or late payment. In addition, Condor has agreed to certain voluntary resale restrictions on the shares of Chakana to be issued to Condor, with periodic releases over an 18-month period.

4. Exploration and Evaluation Assets (continued)

(a) Condor Option (continued)

Pursuant to the amendment agreement and as part of the amount owed to Condor, Chakana also agreed to make a payment of US\$200,000 to Condor's Peruvian subsidiary by April 22, 2022, which was made on April 21, 2022. As at August 31, 2022, the Corporation has made total payments of US\$1,950,000.

Under the agreement, the Corporation may purchase from MVS 50% of the NSR, equal to a 1% NSR, for US\$2,000,000 at any time. On March 18, 2019, the Corporation purchased a 1% NSR on the Soledad Project for \$369,902 (US\$275,000) and 900,000 common shares. As a result of the Corporation purchasing the NSR, the NSR was reduced from 2% to 1%, with the Corporation having the right to repurchase 50% of the NSR (or 0.5% NSR) for US\$1,000,000 subsequent to exercising the option. If the Corporation does not exercise the option to acquire Condor's Soledad concessions, Condor has the right to purchase 50% of the NSR (or 0.5% NSR) for US\$1,000,000. In addition, the pre-royalty payment obligation was eliminated.

(b) Aija Project

On March 20, 2018, the Corporation entered into an Option Agreement (the "Option") with an arm's length third party to acquire 100% of the rights and interest in the Aija Project subject to a 2% NSR. During the year ended May 31, 2021, the Corporation renegotiated the payment schedule.

The option exercise cash payments schedule is as follows:

Installment	Date	Amount (in US\$)
1	Upon execution of Letter of Intent on October 3, 2017 (paid)	\$ 75,000
2	Upon close of Definitive Agreement on August 1, 2018 (paid)	75,000
3	February 1, 2019 (paid)	50,000
4	August 1, 2019 (paid)	50,000
5	February 1, 2020 (paid)	75,000
6	November 1, 2020 (paid)	75,000
7	May 1, 2021 (paid)	100,000
8	November 1, 2021 (paid)	100,000
9	May 1, 2022 (paid)	100,000
10	November 1, 2022	100,000
11	May 1, 2023	1,500,000
Total		\$ 2,300,000

As at August 31, 2022, the Corporation has paid instalments 1 to 9, totaling US\$700,000.

Under the terms of the Option, the Corporation may purchase all of the 2% NSR at any time for US\$2,000,000. There are no drilling or work expenditure commitments under the Option.

(c) Barrick Option

On July 11, 2018, Barrick granted the Corporation an option to acquire a 100% interest in three concessions adjoining the southern extent of the Aija Project (the Barrick Option). Under terms of the agreement, the Corporation has five years in total (two years remaining) to complete a minimum of 2,000 metres of drilling and produce a Preliminary Economic Assessment report compliant with National Instrument ("NI") 43-101 *Standards of Disclosure for Mineral Projects*. In October 2021, the Corporation amended the July 11, 2018 agreement. Under terms of the amended agreement, the Corporation must obtain the Authorization to Immitate Activities ("AIA") for exploration drilling on or before September 27, 2023 (first option). It then has four years

4. Exploration and Evaluation Assets (continued)

(c) Barrick Option (continued)

from the date of the AIA to complete a minimum of 4,000 metres of drilling and produce a Preliminary Economic Assessment report compliant with NI 43-101 (second option). Upon exercise of the option, Barrick will retain a 2% NSR subject to the Corporation's right to purchase 50% of the royalty for US\$2,000,000.

Barrick will have a one-time right to reacquire a 70% interest in the concessions within 120 days of exercising the option by paying the Corporation three times the aggregate amount of exploration expenditures incurred since the execution date and cancelling the 2% NSR. If a production decision is then not made by Barrick within seven years of the Back-in Closing Date, Barrick will make pre-royalty payments of US\$75,000 per year until a production decision is made for a maximum of five years (US\$375,000). If the Corporation does not contribute its share of project costs its interest will be diluted to 10%, upon which its interest will be converted to a 2% NSR with Barrick retaining a right to purchase 50% of the royalty for US\$2,000,000.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED AUGUST 31, 2022 AND AUGUST 31, 2021
(Unaudited – Expressed in Canadian Dollars)

6. VAT Receivable

	August 31 2022	May 31 2022
VAT receivable	\$ 681,419	\$ 566,242

As at August 31, 2022, the Corporation has \$681,419 (May 31, 2022 - \$566,242) in VAT receivable refundable from Peruvian tax authorities, net of VAT that is available to the Corporation, which is not refundable but can be offset against future VAT payable. Management has determined to classify VAT receivable as long-term due to uncertainty of timing as to when it will be received.

7. Lease Obligation

Balance – May 31, 2021	\$	236,769
Interest expense		13,770
Lease payments		(53,130)
Currency translation adjustment		17,700
Balance – May 31, 2022		215,109
Interest expense		3,134
Lease payments		(15,101)
Currency translation adjustment		(908)
Balance – August 31, 2022	\$	202,234
Which consists of:		
Current portion of lease obligation	\$	37,710
Non-current portion of lease obligation		164,524
	\$	202,234

On May 1, 2021, the Corporation entered into a lease agreement for its Peruvian warehouse for a five-year term, expiring April 30, 2026. Pursuant to this lease, the Corporation is obligated to pay basic rent of 15,000 soles (approximately \$4,737) on a monthly basis. The right-of-use asset and lease obligation were measured at the present value of the lease payments and discounted using an incremental borrowing rate of 6.4%.

8. Share Capital

(a) Authorized Share Capital

The Corporation is authorized to issue an unlimited number of common shares without par value.

(b) Issued Capital

During the three months ended August 31, 2022, the Corporation issued common shares as follows:

- On June 21, 2022, the Corporation completed the second and final tranche of its private placement for 10,470,451 units at a price of \$0.11 per unit for gross proceeds of \$1,151,750. Each unit consists of one common share in the capital of the Corporation and one-half of one common share purchase warrant ("Warrant"). Each Warrant entitles the holder to purchase one additional share at a price of \$0.20 for a period of two years from closing of the private placement. The Corporation may accelerate the expiry of the Warrants in the event that for any ten consecutive trading days the closing price of the shares is greater than \$0.30 per unit. The Corporation paid aggregate finder's fees of \$56,511 and issued 513,736 finder's warrants in connection with the first tranche of the private placement. Each finder's warrant is exercisable to purchase one share at a price of \$0.20 for a period of two years from closing of the private placement. The broker warrants were valued at \$26,644 using the Black-Sholes option pricing model. Combined with the first tranche that closed in May 2022, the financing resulted in total gross proceeds of \$6,241,355.

8. Share Capital (continued)

(b) Issued Capital (continued)

- On June 22, 2022, the Corporation issued 1,379,310 common shares, as per the updated agreement with Condor (Note 4(a)).

During the year ended May 31, 2022, the Corporation issued common shares as follows:

- On May 24, 2022, the Corporation completed the first tranche of a non-brokered private placement of 46,269,134 units at a price of \$0.11 per unit for gross proceeds of \$5,089,605. Each unit consists of one common share in the capital of the Corporation and one-half of one common share purchase warrant (“Warrant”). Each Warrant entitles the holder to purchase one additional share at a price of \$0.20 for a period of two years from closing of the private placement. The Corporation may accelerate the expiry of the Warrants in the event that for any ten consecutive trading days the closing price of the shares is greater than \$0.30 per unit. The Corporation paid aggregate finder’s fees of \$265,190 and issued 2,410,823 finder’s warrants in connection with the first tranche of the private placement. Each finder’s warrant is exercisable to purchase one share at a price of \$0.20 for a period of two years from closing of the private placement. The broker warrants were valued at \$111,636 using the Black-Sholes option pricing model.

(c) Stock Options

The Corporation adopted a stock option plan (the “Plan”) whereby it can grant stock options to directors, officers, employees and consultants of the Corporation. The maximum number of common shares that may be reserved for issuance under the Plan is limited to 10% of the issued common shares of the Corporation at any time.

The changes in incentive stock options outstanding are summarized as follows:

	Weighted Average Exercise Price	Number of Shares Issued or Issuable on Exercise
Balance – May 31, 2021	\$0.41	10,010,000
Forfeited	\$0.46	(1,025,000)
Balance – May 31, 2022	\$0.41	8,985,000
Forfeited	\$0.41	(175,000)
Balance – August 31, 2022	\$0.41	8,810,000

During the year ended May 31, 2021, the Corporation granted 5,650,000 incentive stock options to employees and consultants exercisable for a period of five years from the date of grant; 25% of the options will vest immediately on the grant date, 25% of the options will vest six months from the grant date, 25% of the options will vest twelve months from the grant date and 25% of the options will vest eighteen months from the grant date. Of the 5,650,000 incentive stock options, 2,050,000 are exercisable at a price of \$0.40 per common share and 3,600,000 are exercisable at a price of \$0.50 per common share.

The fair value of options vested has been estimated using the Black-Scholes option pricing model, assuming a risk-free interest rate of 3.40% (2021 - 0.75% to 2.77%) per annum, an expected life of options of 3.64 (2021 - 4) years, an expected volatility of 93.69% (2021 - 91.20% to 106.60%) based on historical data and no expected dividends. The Corporation has estimated the dividend and forfeiture rate to be 0.00% based on historical dividend payments and historical forfeiture rates. Expected volatility was determined based on the historical movements in the closing price of the Corporation’s common shares for a length of time equivalent to the expected life of each option.

8. Share Capital (continued)

(c) Stock Options (continued)

Incentive stock options outstanding and exercisable at August 31, 2022 and May 31, 2022 are summarized as follows:

Expiry Date	Exercise Price	August 31, 2022	May 31, 2022
September 14, 2022 ⁽¹⁾	\$0.40	1,885,000	1,885,000
February 5, 2023	\$0.20	700,000	700,000
March 29, 2023	\$0.94	100,000	100,000
December 12, 2024	\$0.20	1,050,000	1,050,000
July 10, 2025	\$0.40	1,650,000	1,800,000
April 22, 2026	\$0.50	3,425,000	3,450,000
Weighted average life remaining		2.27	2.54
Total outstanding options	\$0.41	8,810,000	8,985,000
Total exercisable options	\$0.40	8,760,000	8,760,000

⁽¹⁾ On September 14, 2022, these options expired unexercised.

(d) Warrants

The changes in warrants outstanding are summarized as follows:

	Weighted Average Exercise Price	Number of Shares Issued or Issuable on Exercise
Balance – May 31, 2021	N/A	-
Issued	\$0.20	25,545,390
Balance – May 31, 2022	\$0.20	25,545,390
Issued	\$0.20	5,748,962
Balance – August 31, 2022	\$0.20	31,294,352

During the period ended August 31, 2022, the Corporation issued 5,235,226 investor warrants and 513,736 broker warrants as part of the second tranche of the private placement, which closed June 21, 2022 (Note 9(b)).

During the year ended May 31, 2022, the Corporation issued 23,134,567 investor warrants and 2,410,823 broker warrants as part of the first tranche of the private placement, which closed May 24, 2022 (Note 9(b)).

The fair value of broker warrants uses the Black-Scholes option pricing model, assuming a risk-free interest rate of 2.57% per annum, an expected life of 2 years, an expected volatility of 81.86% based on historical data and no expected dividends. The Corporation has estimated the dividend and forfeiture rate to be 0.00% based on historical dividend payments and historical forfeiture rates. Expected volatility was determined based on the historical movements in the closing price of the Corporation's common shares for a length of time equivalent to the expected life of each warrant.

CHAKANA COPPER CORP.
NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED AUGUST 31, 2022 AND AUGUST 31, 2021
(Unaudited – Expressed in Canadian Dollars)

8. Share Capital (continued)

(d) Warrants (continued)

Warrants outstanding at August 31, 2022 and May 31, 2022 are summarized as follows:

Expiry Date	Exercise Price	August 31, 2022	May 31, 2022
May 24, 2024	\$0.20	25,545,390 ⁽¹⁾	25,545,390 ⁽¹⁾
June 21, 2024	\$0.20	5,748,962	-
Total outstanding warrants	\$0.20	31,294,352	25,545,390

⁽¹⁾ The Corporation may accelerate the expiry of the Warrants in the event that for any ten consecutive trading days the closing price of the shares is greater than \$0.30 per unit.

9. Exploration and Evaluation Expenditures

The Corporation incurred exploration and evaluation expenditures as follows:

	Three Months Ended August 31, 2022	Three Months Ended August 31, 2021
Drilling	\$ 360,546	\$ 1,333,152
Exploration support and administrative	416,716	386,486
Field operations and consumables	195,238	199,229
Geological consultants	83,708	120,446
Permitting and environmental consulting	23,295	67,069
Sampling and geological costs	25,500	230,906
Transportation	51,735	48,899
	\$ 1,156,738	\$ 2,386,187

10. Financial Instruments

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Corporation's primary exposure to credit risk is on its cash, which is being held in bank accounts. The cash is deposited in bank accounts held with one major bank in Canada, therefore, there is a concentration of credit risk. This risk is managed by using a major bank that is a high credit quality financial institution, as determined by rating agencies.

Foreign Currency Risk

The Corporation incurs expenditures in Canada and Peru. Foreign currency risk arises as the amount of the Peruvian sol and US dollar cash, intercompany balances and payables will vary in Canadian dollar terms due to changes in exchange rates.

As at August 31, 2022 and May 31, 2022, the Corporation has not hedged its exposure to currency fluctuations.

CHAKANA COPPER CORP.
NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED AUGUST 31, 2022 AND AUGUST 31, 2021
(Unaudited – Expressed in Canadian Dollars)

10. Financial Instruments (continued)

Foreign Currency Risk (continued)

As at August 31, 2022 and and May 31, 2022, the Corporation is exposed to currency risk through the following assets and liabilities denominated in Peruvian soles and US dollars:

	August 31, 2022		May 31, 2022	
	Soles	US\$	Soles	US\$
Cash	86,341	1,220,017	38,589	184,635
Accounts payable and accrued liabilities	(725,642)	(78,980)	(740,213)	(202,986)
Net	(639,301)	1,141,037	(701,624)	(18,351)
Canadian dollar equivalent	(838,188)	1,496,013	(240,517)	(23,209)

Based on the above net exposures as at August 31, 2022, a 5% (May 31, 2022 - 5%) change in the CDN dollar/Peruvian sol and Canadian/US dollars exchange rate would impact the Corporation's income (loss) and comprehensive income (loss) by approximately \$42,000 and \$74,800 (May 31, 2022 - \$12,000 and \$1,000), respectively.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Corporation's exposure to interest rate risk relates to its ability to earn interest income on cash at variable rates. The risk is minimal.

Liquidity Risk

Liquidity risk is the risk that the Corporation will encounter difficulty in satisfying financial obligations as they become due. The Corporation manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. At August 31, 2022, the Corporation has cash and cash equivalents of \$3,793,673 (May 31, 2022 - \$5,564,165), current liabilities of \$528,068 (May 31, 2022 - \$692,439) and non-current liabilities of \$164,524 (May 31, 2022 - \$165,053).

The amounts listed below are the remaining contractual maturities for financial liabilities held by the Corporation:

As at	August 31, 2022		May 31, 2022	
Due date				
0 – 90 days	\$	505,784	\$	657,809
91 – 365 days		46,129		46,278
More than 1 year		164,016		179,970
	\$	715,929	\$	884,057

Determination of Fair Value

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. Management considers that due to their short-term nature the carrying amounts of financial assets and financial liabilities, which include cash and accounts payable and accrued liabilities are assumed to approximate their fair values. The lease liability is classified as Level 2 and the fair value is determined based on market interest rates.

10. Financial Instruments (continued)

Fair Value Hierarchy

Financial instruments that are measured subsequent to initial recognition at fair value are grouped in Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

11. Management of Capital

The Corporation's primary objectives in capital management are to safeguard the Corporation's ability to continue as a going concern in order to provide returns for shareholders and to maintain sufficient funds to finance the development of the Soledad and Aija projects. Capital is comprised of the Corporation's shareholders' equity. The Corporation manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. To maintain or adjust its capital structure, the Corporation may attempt to issue new shares, issue debt, acquire or dispose of assets, or adjust the amount of cash. The Corporation is not subject to any externally imposed capital requirements. The Corporation did not change its approach to capital management during the period ended August 31, 2022.

12. Segmented Information

The Corporation operates in one reportable segment, the exploration and development of unproven exploration and evaluation assets. The Corporation's primary exploration and evaluation assets are located in Peru and its corporate assets, comprising mainly cash, are located in Canada. The Corporation is in the exploration stage and has no reportable segment revenues or operating results.

The Corporation's total assets are segmented geographically as follows:

	Canada		Peru		Total
As at August 31, 2022					
Current assets	\$ 3,635,516	\$	368,192	\$	4,003,708
Exploration and evaluation assets	-		5,241,184		5,241,184
Property and equipment	2,613		583,915		586,528
Value-added tax receivable	-		681,419		681,419
	\$ 3,638,129	\$	6,874,710	\$	10,512,839
As at May 31, 2022					
Current assets	\$ 5,487,835	\$	317,512	\$	5,805,347
Exploration and evaluation assets	-		3,899,630		3,899,630
Property and equipment	-		616,652		616,652
Value-added tax receivable	-		566,242		566,242
	\$ 5,487,835	\$	5,400,036	\$	10,887,871

13. Related Party Disclosures

The Corporation's related parties include key management personnel and companies related by way of directors or shareholders in common.

(a) Key Management Personnel Compensation

During the three months ended August 31, 2022 and 2021, the Corporation paid and/or accrued the following compensation for salaries, fees and stock-based compensation to key management personnel:

	August 31, 2022	August 31, 2021
Management fees, included in salaries and wages	\$ 64,707	\$ 63,501
Accounting fees	25,500	25,500
Directors' fees, included in consulting fees	40,667	56,688
Stock-based compensation	25,535	45,645
	\$ 156,409	\$ 191,334

(b) Due to Related Parties

The Corporation has the following amounts due to related parties included in accounts payable and accrued liabilities. The amounts owing are non-interest-bearing, unsecured and due on demand.

	August 31, 2022	May 31, 2022
Directors	\$ 93,565	\$ 67,648

14. Contingency

During the year ended May 31, 2022, a former employee who had the role of community relations manager for the Corporation's subsidiary filed a claim against the Corporation alleging he suffered an injury while working with the Corporation and is seeking compensation for damages of up to US\$390,000. The former employee was employed during 2019 and has provided no evidence such injury occurred while employed by the Corporation nor if such injury was a direct result of his employment. The Corporation believes the claim is without merit and intends to vigorously defend its position. Due to COVID-19, the next hearing has been scheduled for January 12, 2023. As the outcome of this claim is uncertain, no amount has been accrued for any potential loss under this complaint.

15. Subsequent Event

On September 29, 2022, the Corporation granted stock options to certain of its directors, officers, employees and consultants to purchase up to 4,200,000 common shares.
